## TABLE OF CONTENTS

Section 1. Overview

Section 2. Finite Element Formulation

Section 3. Shape Function

Section 4. Porous medium consideration

Section 5. Supplement for Locking Phenomena

Section 6. Continuum Elements

Section 7. Structural Elements

Section 8. Special Purpose Elements

Section 9. Geometric Stiffness

Section 10. Seepage Element

Section 11. Consolidation Element

Section 12. Heat Conduction Element

Section 13. Fully-Coupled Element  
(Thermal-Hydro-Mechanical)
